Knocking down barriers: advances in siRNA delivery

Kathryn A. Whitehead, Robert Langer & Daniel G. Anderson

Nature Reviews Drug Discovery **8**, 129–138 (2009) | doi:10.1038/nrd2742

On page 136, in the glossary term and in the main text, age-related macular degeneration (AMD) has been incorrectly attributed to “excessive growth and rupture of blood vessels within the cornea”. The correct version should state that this occurs within the retina.
