CORRIGENDUM

Targeting prohibitins with chemical ligands inhibits KRAS-mediated lung tumours

H Yurugi, F Marini, C Weber, K David, Q Zhao, H Binder, L Désaubry and K Rajalingam

Oncogene (2017) **36,** 5914; doi:10.1038/onc.2017.307; published online 28 August 2017

Correction to: *Oncogene* (2017) **36**, 4778–4789; doi:10.1038/onc.2017.93; published online 17 April 2017

Following the publication of this article the authors noted that the description of Figure 4a and Supplementary Figure S2 needed to be corrected for appropriateness in the main text. The passage on page 2 of the PDF was consequently amended to read:

'We then tested if rocaglamide treatment could inhibit KRAS-GTP in cells carrying mutated KRAS. Interestingly, treatment of both 482T1 (Supplementary Figure S2A) and NCI-H226 cells (wild type KRAS) with rocaglamide led to inhibition of RAS-GTP loading in these cells in a concentration-dependent manner (Figure 4a and Supplementary Figure S2B). We then checked…'
