After online publication of this article, the authors noticed an error in the Fig. 2 section.

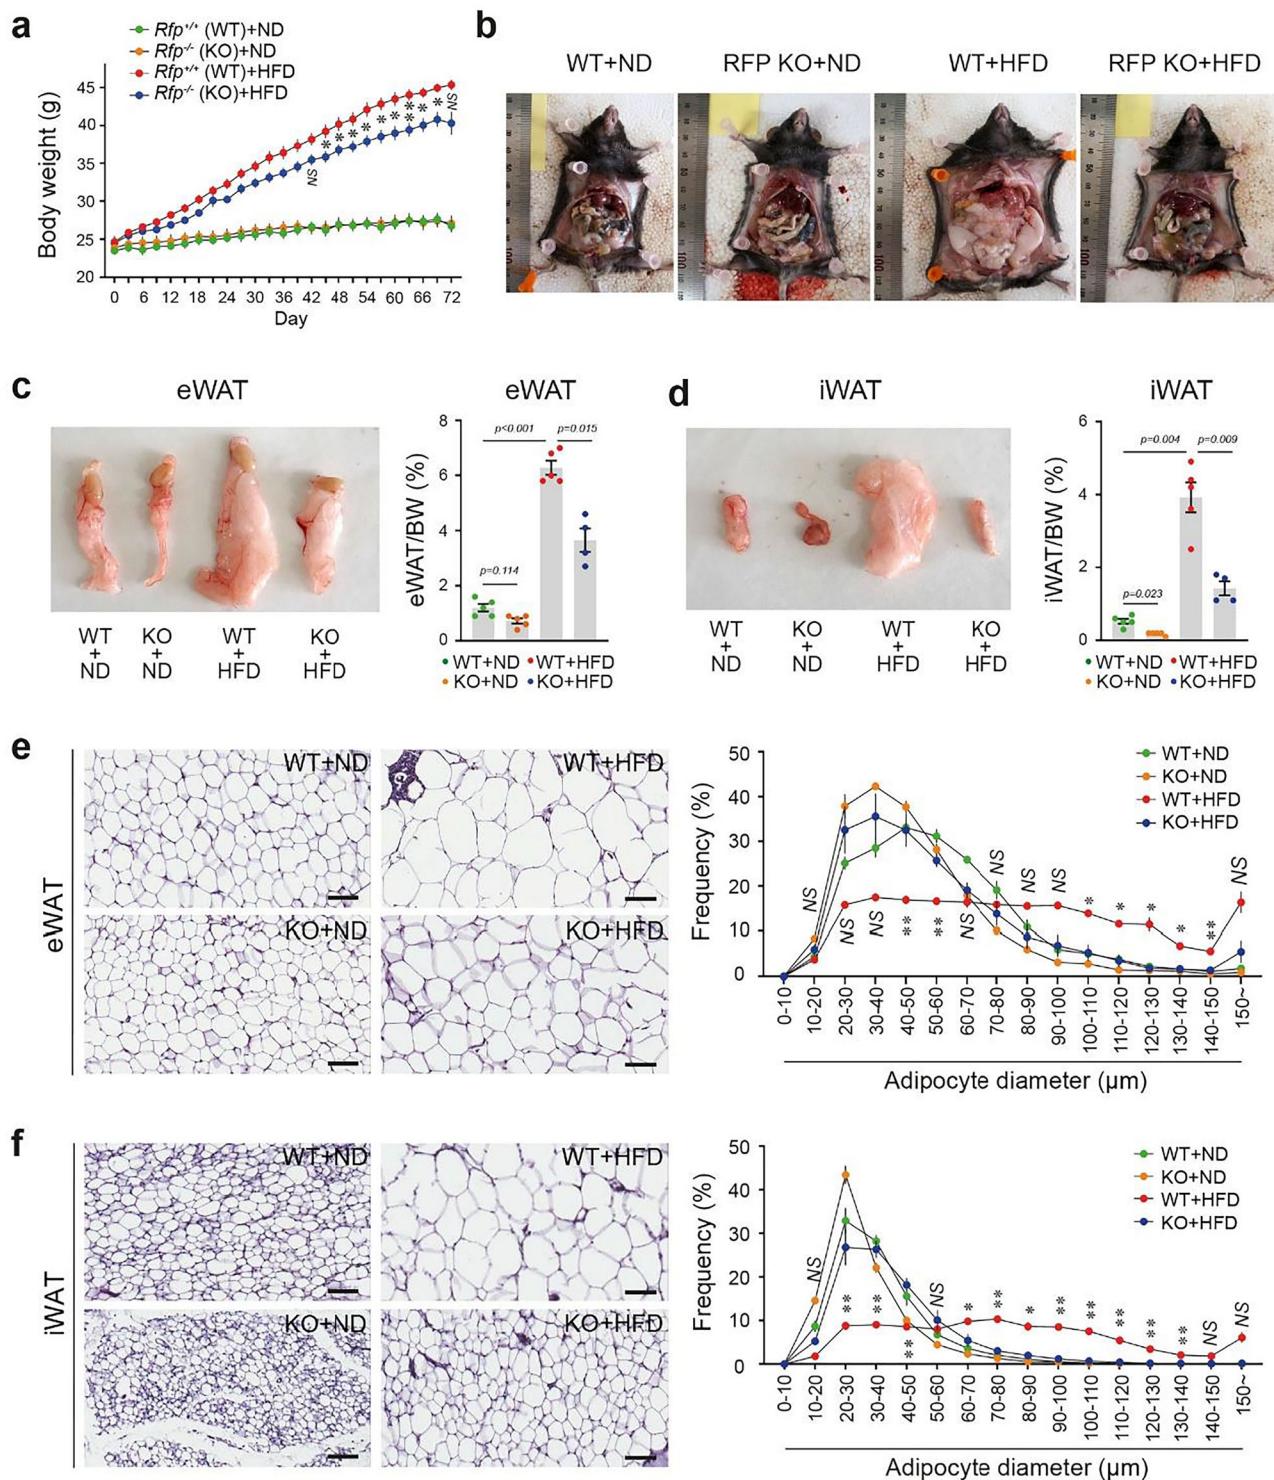

In Fig. 2 of the article, the image in the upper-right panel of Fig. 2e (eWAT histology) was inadvertently duplicated as the upper-right panel of Fig. 2f (iWAT histology).

The correct image for Fig. 2f has now been provided. The correction does not affect the interpretation of the *in vivo* experiments or the overall conclusions of the paper. The original article has been corrected.
