Correction to: Leukemia 29

<https://doi.org/10.1038/leu.2014.236>

Since publication of the original article, the authors have noticed an error in the legend of Fig. 7. The legend reads: “**(b, c)** Administration of warfarin at 1 mg/ml drinking

water reduces overall survival”, but should read: “**(b, c)** Administration of warfarin at 1 mg/ml drinking water increases overall survival”. The figure is described correctly elsewhere in the article, and the error does not affect the overall findings of the paper. The authors apologise for any inconvenience caused.
