

Enjoy total control of your whole business across multiple clinics

AeronaDental practice management software offers total functionality for multi-site and group practices. With in-depth financial, clinical and business performance reporting, you can instantly access data to help you grow your business.

Fantastic communication tools aid patients in engaging with your practice. As part of the suite of online patient management tools, patients can see where there are available appointments across all of your locations, reducing the risk of them looking elsewhere for treatment when one location is busy.

With secure, cloud-based systems, the right patient information is accessible to all who need it among the team. Manage every site of your practice, from the palm of your hand. You can control appointments, staff rota, payments, patient recalls and reminders and analytics reports wherever you are located, from any device.

The first cloud-native intraoral scanning solution

Dentsply Sirona continues to pave the way for the future of digital dentistry with the introduction of a new, versatile, and innovative intraoral scanner: Primescan 2. Powered by the DS Core cloud platform, the new wireless scanner is cloud-native, meaning it can scan on any internet-connected mobile or desktop device – without needing a dedicated computer. With improved workflow efficiency and extended treatment capabilities, when compared to Primescan AC and Primescan Connect, Primescan 2 allows practices to expand the services they offer to patients and grow their business. Meanwhile, improved communication and diagnostic tools help dental professionals deliver a high standard of care and comfort.

Primescan 2 benefits for dental practices include:

- Hardware-independence: Cloud-native solution operating on any device with an internet browser and enabled DS Core features
- Versatility: Wireless and easy to move. With Primescan 2, scan any patient, anytime, anywhere
- Simple handling: Sleek and well-balanced design with a narrower tip, allowing for easier access to molars or distal surfaces
- Fast workflow: A full arch scan can be taken in less than one minute while delivering excellent accuracy
- Ease of delegation: Easy to delegate the scanning work to other dental professionals in the practice team. During treatment, only the affected teeth have to be rescanned
- Always up to date: DS Core always runs on the latest version, eliminating the need for manual software updates

- Primary storage in the cloud: Reduces the need for additional scan storage costs in the practice
- Reliable hygiene: Comprehensive hygiene concept with closed design around the field of view, convenient single-use sleeves, and optional multi-use steel sleeve with sapphire glass (anticipated launch in Q4).

Announcing the launch, Simon Campion, President & CEO at Dentsply Sirona, added: 'Primescan 2 is more than just an intraoral scanner – it provides new momentum for dental practices navigating today's rapidly evolving landscape. Designed with the future in mind, Primescan 2 is transformative in its field, empowering dental professionals to confidently meet the demands of their patients by delivering simplicity, efficiency, and versatility.'

'This solution not only enhances the patient experience but also supports practice growth. With Primescan 2, we enable our users to stay ahead of the curve, thriving in a dynamic environment while focusing on what truly matters – providing exceptional patient care.'

All newly qualified dentists

Here's a little gift to get you going... Kiroku is an incredibly powerful system using AI to enable clinicians to complete notes 60% faster and then convert them instantly into documentation.

As dentists, the people behind Kiroku understand the need to get up and running as fast as possible after you qualify, and so

here is some great news for graduates!

Dental professionals who graduated in 2024, working in the UK and Ireland, can benefit from a whole year for free if they make just 30 notes in 30 days. And you can get a massive 50% off any plan for the following 12 months. If you graduated in 2023, you can get a 50% discount on any plan

for the next 12 months if you subscribe now!

And last but not least, if you are a PLVE with proof of status, you can get a free 14-day trial, plus 50% off Kiroku during your first year of work. To find out more about Kiroku, or to start your free trial visit <https://www.trykiroku.com/dental-foundation-training>.
