

EBOOKS FROM YOUR LIBRARY SERVICE

Compiled by **Pete Folly**, Library Manager

Your BDA Library service is available at the touch of a button - you don't need to visit us to make use of our resources, which include book loans, ejournals, document supply service, evidence-based literature searches, and over 680 eBooks.

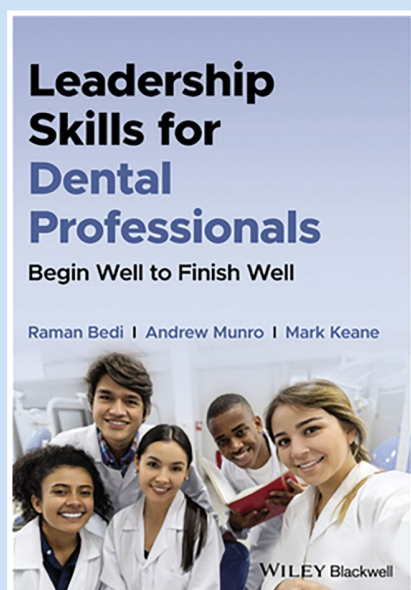

Endodontics Review: A Study Guide (2nd Edition)

Brook Blicher, Rebekah Lucier Pryles, and Jarshen Lin
2022; Quintessence Publishing
354 pages
eISBN 9781647241537

The first edition of this book – known as the 'Orange Book' – was published in 2016. It provided readers with a comprehensive evidence-based guide to the field of endodontics. Since then, there have been significant developments in endodontics. The literature has grown, evidence-based standards continue to

evolve, and practitioners have adapted their clinical practice accordingly. This study guide has been extensively updated based on new peer-reviewed journal articles, position statements, and guidelines, and revisions are reflected in the current treatment protocols for pulpal and periapical diseases as well as traumatic dental injuries, cracked and fractured teeth, and resorptive dental injuries. Each of the thirteen chapters is fully referenced with a comprehensive bibliography of the scientific literature.

Leadership Skills For Dental Practitioners: Begin Well To Finish Well

Raman Bedi, Andrew Munro, and Mark Keane
2022; John Wiley & Sons
147 pages
eISBN 9781119870104

Effective leadership to improve safety and quality is a key skill for a dental practitioner. This book equips all members of the dental team with leadership skills for professional and personal life and will help develop vital competences that will complement clinical skills. Designed to prepare every member of the dental team for the leadership tasks and challenges they will face in general practice, this resource helps the reader to develop skills not explicitly taught in traditional dental education. Topics include: interpersonal and communication skills; personal and professional ethics and behaviour;

understanding your role; identifying and focusing on priorities; influence and persuasion; managing change; self-assessment and peer evaluation; team building and dynamics; managing and addressing colleagues' behaviour; time and resource management; people management and disciplinary matters; analysis of patient safety incidents; understanding the legal and financial aspects of your practice.
