Correction to: The BH3-only protein Bad is dispensable for TNF-mediated cell death

E. Ottina¹, M. Sochalska¹, R. Sgonc² and A. Villunger¹

Correction to: Cell Death and Disease 6:e1611; <https://doi.org/10.1038/cddis.2014.575>; published online 22 Jan 2015

Since publication of this article, the authors wished to draw attention to an error in the materials section as a result of which they have been mis-cited (<https://www.nature.com/articles/s41422-018-0041-7>). The dose of TNF given was not in fact 15 mg/kg body weight (as

stated in the “mouse work” section), but 15 µg/kg body weight.

The authors would like to apologize for any inconvenience this may have caused.
