Correction to: *The Journal of Antibiotics*

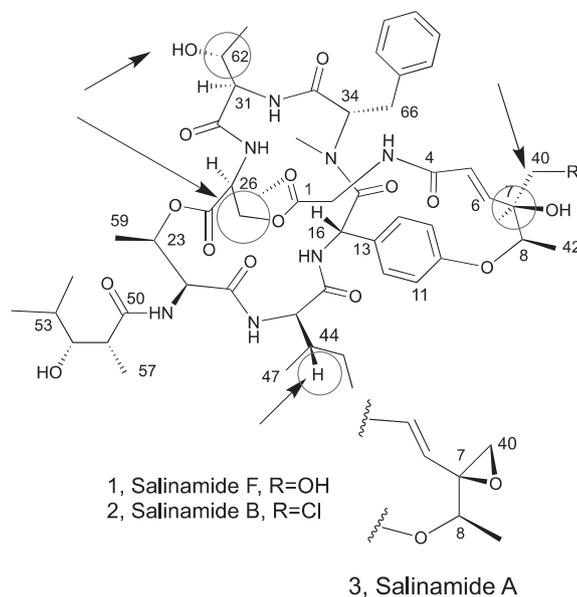

<https://doi.org/10.1038/ja.2014.122>,
published online 17 September 2014

Several drawing errors occurred when the structure of salinamide F (**1**) was drawn for publication. Below on the left is the incorrect structure as published, followed on the right by the

correct structure. Arrows illustrate where errors were made in atom labelling and the stereochemistry at C-62, 44, and 7 has been properly indicated. As stated in the text, the structure of salinamide F (**1**) is identical to the structures of salinamides A and B (**2**, **3**) (*J. Org. Chem.* 1999, *64*, 1145–1150), except for hydrolysis of the epoxide. The original article has been corrected.
