In the version of the article initially published, there were typos and miscalculation in the reaction concentration shown in Fig. 3c and the Methods section. The original concentration notion of “1.7 μM ” (Fig. 3c) and “2 mM” (Methods) now reads “approx. 2 mM”. The sentence “ PhICl_2 (6.0 equiv) was added as solid in one portion” in the Methods section was corrected to “ PhICl_2 (6.0 equiv) was added as solid in one portion or as solution dropwise.” In addition, typos and miscalculation in the reaction concentration, equivalents, time and temperature notations the Supplementary Information were corrected. These corrections have been made to the HTML and PDF versions of the article.
