In the version of the article initially published, in the affiliations and Competing interests section, the “Global Antibiotic Research and Development Partnership (GARDP)” was incorrectly listed as the “Global Antimicrobial Research and Development Partnership (GARDP)” and has now been corrected. Additionally, the sentence “A.H. declares past personal consulting work for Pfizer outside the submitted work, and a donation from Pfizer to the University of Liverpool for a public and professional engagement project outside the submitted work” was missing from the Competing interests section and has now been added to the HTML and PDF versions of the article.
