## Corrigendum: Pulsatile cell-autonomous contractility drives compaction in the mouse embryo

Jean-Léon Maître, Ritsuya Niwayama, Hervé Turlier, François Nédélec and Takashi Hiiragi

*Nature Cell Biology* **17**, 849–855 (2015); published online 15 June 2015; corrected after print 5 July 2017

In the version of this Article originally published, the wave velocity reported in the sentence beginning 'In the absence of cell–cell contacts...' was incorrectly calculated and should have read ' $0.8 \pm 0.1 \mu\text{m s}^{-1}$ '. The wave velocity is calculated by dividing the cell perimeter by the oscillation period, and further dividing this by two as there are two waves travelling around the cell. The number of waves was not taken into account in the originally published version of the Article. This mistake does not affect the main conclusions of the paper, as this sentence only describes a property of the phenomenon identified. This error has been corrected in the online version of the Article.
