Retraction to: *Oncogene* <https://doi.org/10.1038/sj.onc.1207338>, published online 19 January 2004

The Editors-in-Chief have retracted this article. It was brought to the attention of the publisher that figure 2 appears to contain undeclared splicing, and two images appear to overlap in figure 5, SNB19-CatB/AS1 and SNB19-CatB/AS2. The authors did not

sufficiently respond to these concerns. The Editors have lost confidence in the data and conclusions of this article.

The publisher has been unable to obtain a current email address for authors Krishna V. Gumidyal, Kevin G. Waldron, Meena Gujrati, Jasti S. Rao and Sanjeeva Mohanam. All other authors did not respond to the publisher regarding this retraction.
