Correction to: *Oncogene* <https://doi.org/10.1038/s41388-018-0238-8>, published online 17 April 2018

Following the publication of this article, the authors noted two inadvertent errors in Figure 5c, which occurred during figure assembly. The JAK2 immunoblot was mistakenly used in place of

the STAT5 immunoblot, and the GAPDH loading control was inadvertently taken from a different blot generated from the same cell lysates. The corrected Figure 5c is provided below. The authors confirm these errors do not affect the underlying experimental data or the conclusions of the study and apologise for any inconvenience caused by these errors.

Figure 5
