# Author Correction: Infralimbic cortex is required for learning alternatives to prelimbic promoted associations through reciprocal connectivity

Arghya Mukherjee  <sup>1</sup> & Pico Caroni  <sup>1</sup>

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-018-05318-x>, published online 13 July 2018.

The original version of this Article contained an error in the Acknowledgements, which incorrectly omitted from the end the following: 'This project has received funding from the European Research Council (ERC) under the European Union's Horizon 2020 research and innovation programme (MemoryDynamics - grant agreement No 694086).' This has been corrected in both the PDF and HTML versions of the Article.
