In the version of the article initially published, in Fig. 2c, two identical pictures were used for two different mouse genotypes (WT and A20 IEC-KO ileum). The authors confirm that an inadvertent duplication of the same image occurred, but this did not alter the study's conclusions. The authors regret this mistake and have corrected the figure by removing the duplicated picture and importing the original picture from the WT condition. The corrected figure is included as Fig. 1 alongside this notice.

Fig. 1 Corrected Fig. 2
