In the version of this article initially published, there was an error in the first paragraph of the “*C. albicans* enhances *Salmonella* virulence” section, where in the text now reading “Faeces of mice from cage 1,” “cage 1” appeared as “cage 3.” The legends to Fig. 5b,d, originally reporting significance derived from two-tailed unpaired Student’s *t*-tests, have been amended to note that Mann Whitney *U* tests were used. In the significance bars in Fig. 5b, “*P* = 0.0107” and “*P* = 0.0274” now replace the original “*P* = 0.0202” and “*P* = 0.0343.” In Extended Data Fig. 1a, dots depicting mice in cage 1 before infection were missing, and the legend has been amended to read “Data are median with range” from the original “Data are geometric mean ± s.d.” The text and figures have been amended in the HTML and PDF versions of the article.
