The Editors would like to alert readers that a concern has been raised regarding the similarity of Fig. 2d Cisplat+ pr-cas3 blots representing MDA231 and BT549 cells. These blots appear to share some highly similar features; however, due to the age of the article and the low resolution of available images, we were unable to conclusively determine the extent of this similarity. Readers are therefore advised to interpret these data with caution.

Yang Li, Lihua Zou, Zoltan Szallasi, J. Dirk Iglehart, Andrea L. Richardson and Zhigang Charles Wang do not agree to this Editorial Expression of Concern. Qiyuan Li, Benjamin Haibe-Kains, Ruiyang Tian, Yan Li, Christine Desmedt and Christos Sotiriou could either not be contacted or did not respond to correspondence regarding this Editorial Expression of Concern.

The editors would like to alert the readers that concerns have been raised regarding some of the data presented in the figures of this article. Specifically, in Figure 4c, lanes pAKT S473 and pS6 appear highly similar.

Due to the age of the article, the original data are no longer available for validation. Readers are therefore advised to interpret these results with caution.

The corresponding author has confirmed that Christine M. Lovly, Nerina T. McDonald, Heidi Chen, Sandra Ortiz-Cuaran, Lukas C. Heukamp, Yingjun Yan, Alexandra Florin, Luka Ozretić, Diana Lim, Lu Wang, Zhao Chen, Xi Chen, Paul K.
